Comments about [Steppas' Delight 2 Volume 2](#) - Various

Jorad

3xLP compilation. Although I had some doubts when I picked it up at the store, it was definitely a pleasant surprise. Very good sound, nice press. While the tracks are a bit uneven there are several very good titles which all would deserve a 12" issue of their own, including a James Blake track on Side E (other stuff on this vinyl more interesting in fact).
